

# THE BURKLEY OIL COMPANY in BURKBURNETT OIL FIELDS

IN THE CENTER OF PRODUCTION

## Oil Struck Almost Within Stone's Throw of Burkley Property!

We are just advised by wire that the Clover Leaf and Mammoth wells lying just north, and within a few hundred feet of our holdings, have just been brought in.

### WHAT TWO COMPANIES DID IN THE SAME FIELD

Just recently the lease on the Marne property which consists of 240 acres sold for \$3,500,000 cash. It is now worth \$6,000,000 and can not be bought for that.

The Fowler Company whose stock is worth \$100 par value is now selling at \$25,000 per share.

The Marne Company paid a dividend of \$1700 per share on par value of \$100.

R. ALLYN LEWIS,  
PHOENIX, ARIZ.

The Clover Leaf located fifteen hundred feet north of where Burkley Oil Company derrick now building on Van Cleave Tract. Mammoth located in the same tract.  
235PM  
SHEPARD & COMPANY

FORT WORTH, TEXAS, MAR 6, 1919.

Reported brought in  
800 barrel well  
March 4th

Wells on Clover Leaf 1500 feet north of Burkley derrick now building on Van Cleave Tract, and Mammoth in SAME TRACT just brought in.

## DRILLING TO START IMMEDIATELY

The drilling site for our No. 1 well on property No. 1, located in the center of production on Van Cleave Tract No. 102, has been selected and staked out, contract let for building a 96 ft. standard derrick to Mr. W. L. Smith who has built a number of derricks for Mr. C. T. Engle, construction started Monday March 3d. This was personally supervised by Mr. Shepard who was assisted by the advice and suggestions of Mr. C. T. Engle.

Mr. Engle is considered one of the best posted men in this field and is well versed as to equipment and location. As an illustration of this I might mention the fact that Mr. Engle has never yet drilled a dry hole, including among his successes the Wichita Southerns, 100% dividend payer; Helen-Elizabeth now selling at 7 to 1; Engle Oil Company with a par value of \$100.00 now selling at \$340.00; Lone Star Oil & Gas Company with a par of \$100.00 selling at \$260.00, in addition to several others. Mr. Engle has expressed himself as feeling absolutely confident that the Burkley Oil Company will bring in a good well on the location selected.

Active drilling operations have now started. We expect within the next ten days our derrick to be completed, our water well dug, and our contract for drilling No. 1 well under way, and arrangements made for the erection of a derrick on our No. 2 well.

The history of the companies in this field has been that as soon as a well starts drilling, the stock advances owing to the demand for same. Stock in the Burkley Oil Company is now selling rapidly and can be bought for par \$1.00 per share. We advise you to book your orders and take no chances on the price being advanced or the stock being taken from the market.

In view of the favorable reports received on this company and the brokerage house back of it, we feel justified in accepting provisional orders for the stock at \$1.00 per share—subject to the approval of the Corporation Commission—when the certified copies of papers arrive and are passed upon. Should the commission fail to act favorably, any funds sent us will be returned at once.

Mr. R. Allyn Lewis, P. O. Box 1025, Phoenix, Arizona.
